We kick off the season with *What Makes Us Laugh?* Are laughter and humor universal, or specific to cultures and social contexts? In this course, Jeff Nash, MSU Emeritus Professor, will explore the varieties of humor, understand the conditions under which people laugh, review explanations of humor and describe the purposes of humor. We'll learn about trends in standup comedy, as well as what philosophers and social scientists have to say about humor and its significance for society and culture. Using examples from YouTube clips to illustrate humor, we will enjoy a laugh or two! Call 479-575-4545 to become a member and register for classes. **10am** **PH** **\$** **(W)**

Aging is a part of living. We age every day, and some of us more gracefully than others. Circumstances have changed – actually, they have changed a lot. Yet, the one thing that remains constant is that we are aging in a world none of us imagined! As a generations scholar, this intrigues and motivates Judith Tavano, who has returned with an updated 2022 version of *Wit and Wisdom of Aging*. Join Judith as she looks at what's good about aging, what's less than good, what we can't change – and what we can. We'll look backwards, forwards and to each other to gather our wits and share our wisdom. Call (479) 575-4545 to become a member or to register. **2pm** **PH** **(W)**
