E.A. Allen is a cattle farmer, history professor and retired CIA intelligence officer. He writes the Montclaire Mysteries for adult readers, which follow the exploits of Gerard de Montclaire, a ruthless and relentless early-20th-century crime fighter. More recently, he launched the Percy St.-John Adventures for teens and young adults, in the tradition of the Arthur Conan Doyle, Dorothy L. Sayers and Agatha Christie stories he loved as a young reader. Allen has taught history and international relations at several colleges and universities, including Loyola, Xavier, the University of New Orleans and the University of Virginia. He holds a Ph.D. in modern European history from Tulane and studied at the University of Montpellier in France. At the CIA, he served as Senior Analyst for European Security Affairs, and during the Clinton and Bush administrations, he was Deputy National Intelligence Officer for Europe on the National Intelligence Council. He now lives on a farm in the mountains of Northwest Arkansas, where he spends his "spare time" building a rustic cabin in the nearby Ozark forest. **2pm** PH (W)
